LE professionals and their departments can win with the media; this one-day training program shows you how. You will learn how to deal with reporters in a wide range of circumstances from routine day-to-day inquiries to a full-blown critical incident (we study in-depth the Chicago Police Department's officer-involved LaQuan MacDonald shooting.) This is practical training, not theoretical; what you learn will work for you on the street, right away. Topics include: meeting the 900-pound gorilla; the "DWI" Principle of successful media relations; taking back your share of the First Amendment; "feeding the animals"; don't get stuck on stupid!; controlling the media at incident scenes; managing media relations and public relations when things get ugly; and much, much more. Students learn how to take charge of reporters rather than being victimized by them. Numerous videos illustrate key teaching points, informing and entertaining the class. You will learn valuable strategies and tactics, and you will have fun doing it! The bottom line: this training helps LE professionals become far more comfortable and effective with the media, teaches you useful media skills and controls, and enables you to enjoy better media relations and better public relations.

All law enforcement decision-makers, supervisors, and/or subject-matter experts who expect contact with the media will benefit from this training. This includes police chiefs and deputy chiefs; sheriffs and undersheriffs; captains, lieutenants, sergeants, watch commanders, shift supervisors, on-scene incident commanders and public information officers.
